New Apps

Learn about the new Cosentino® applications to configure and design your kitchen. Visualize instantly the possibilities and the combinations it offers Dekton®.

Cosentino Kitchen 3D

Configure your own kitchen with the new Cosentino Kitchen 3D application to make your kitchen come to life. You will have an image in 3D how your kitchen will look.

Cosentino Online Visualizer

Combine all the Cosentino® products in our colour simulator in 8 different environments. Combine with furniture, floors, countertops...

Web News

Discover the new possibilities of our Dekton® website:

- ▶ Displays the images of your colors in High Resolution with different view, formats and design possibilities.
- ▶ Locate your nearest point of sales in our advanced search engine, the entire of stores network, stonemasons and Cosentino® Centers just one click away.
- ▶ Discover Dekton® projects in-depth and share the information of all these architectural models.

WHAT IS DEKTON®?

Dekton® is a sophisticated mixture of more than 20 minerals extracted from nature. Its production process is the result of years of learning and inspiration to make glass, latest-generation porcelain tiles and quartz surfaces.

Dekton® emulates in a few hours what takes nature thousands of years, through an exclusive technological process.

PST is a process that sinters mineral particles so that they link up and change their internal structure.

PST technology completely synthesises innovative procedures from the most advanced technology industries. This evolution represents a technological and industrial leap capable of generating a new process, a revolutionary material and a leading product.

Dekton® uses the exclusive PST technology, a technological process that uses an accelerated version of the metamorphic changes that natural stone undergoes from exposure to high pressure and high temperatures for thousands of years.

The electron microscopy can appreciate the reduced porosity of the material, due to the sintering process and exclusive ultra-compaction of Dekton®. It's virtual zero porosity and the non-existence of the microflaws that cause tension and weaknesses set Dekton apart from other materials.

UltraThickness

Dekton® slabs come in different thicknesses so that you choose the most appropriate option depending on the application, design or desired effect, from 0.8 cm to 2 cm.

UltraSize

Thanks to the size and the lightness of Dekton® (3200x1440mm), the design possibilities for your kitchen, bathroom, façade, walls or high transit floors are growing exponentially.

DEKTON® ULTRACOMPACT SURFACES

Large Format Infinite Possibilities

Thanks to the size (up to 3200x1440mm)* and the lightness of Dekton® (from 8 mm thick), the design possibilities for your kitchen, bathroom, façade, walls or high transit floors are growing exponentially.

It Resists Everything

Extremely resistant to scratching, virtually zero porosity and highly resistant to aggressive chemical products.

Relentless in Heat

Extreme resistance to high temperatures, cookware fresh off the hotplate and UV rays.

Unlimited Inspiration

Design your modern kitchen with eye-catching colours and unique textures. Large format for new compositional solutions.

A Worktop to be Enjoyed

Easy maintenance, no traces of fingerprints or marks and maximum durability. Your Dekton worktop is guaranteed for 10 years.

Dekton® Advantages

- Highly UV Resistant
- Scratch Resistant
- Resistant to Stains
- Maximum Resistance to Fire and Heat
- Resistant to Abrasion
- Resistance to Freezing and Thawing
- Superior Mechanical Resistance
- Low Water Absorption
- Dimensional Stability
- Fireproof Material
- High Resistance to Hydrolysis

Dekton XGloss Advantages

- Crystalline Shine
- Water Repellent

*The largest size for Zenith, Aura15, Kairos, Entzo, Halo, Tundra, Fiord and Glacier is 3170mm x 1420mm

DEKTON® ADVANTAGES

Scratch-Resistant

Dekton® is the most scratch resistant surface on the market and while the slip of a knife won't damage Dekton®.

Due to the intense shine of Dekton® Xgloss, it needs a special maintenance and care. In particular for the darkest colors, like Spectra, whose deep color brings out even the smallest detail.

Stain-Resistant

Because of its low porosity, the new surface Dekton®, is a highly resistant to everyday domestic stains and chemical agents. Even the most stubborn stain such as wine, coffee, ink and rust can be easily cleaned.

Splashes and drops of everyday cleaning products such as bleach or degreasing ovens do not cause any harm to the material.

Low Water Absorption

Dekton® as a reduced water absorption and it is a non-porous material that never needs to be sealed. It naturally prevents liquids and gasses from penetrating the surface, making it a low maintenance surface that is easier to clean.

Maximum Resistance to Fire and Heat

Dekton® has very good resistance to high temperatures without affecting its aesthetics or its properties. Hot utensils, appliances, pots and pans can be placed directly on the surface without any danger or harm.

*For a correct use and maintenance of Dekton®, follow the recommendations given in our Maintenance and Cleaning Manual.

KITCHEN WORKTOPS

Dekton® is a long-term product for those looking to turn their kitchen into a unique space. Firstly, because it allows you to have installation in one piece with fewer cuts and joints, no limits just the appeal of a completely uniform surface, which fits seamlessly into very different design styles.

Dekton® combines the qualities desired by the chef in all of us. It is a clean surface that is nice to touch and resistant to the daily grind that takes place in a kitchen over years of use. An ultra-sophisticated material for busy everyday life, capable of creating spaces that make the preparing of food, day after

day, a pleasant experience that precedes the pleasure of sharing a meal with friends or family.

It represents beauty and solidity with easy, fuss-free cleaning. The structural density of Dekton® is a breakthrough in engineering, but what really matters is that we do not have to worry about scratches, stains or traces of heat. A simple wipe with a cloth and presto, because the kitchen should be enjoyed with no restrictions, this is the Dekton® way of thinking.

OUTDOOR KITCHEN COVERING

Dekton® Kelya

Cook with the Sky as a Roof

Cooking is definitely a pleasurable experience and doing it outdoors, usually results in a small social event. Everyday celebrations that we can enjoy in company around a grill. Dekton®, due to its ultra-compact structure, is particularly suitable for installations for outdoor kitchens and barbecues.

Dekton® provides strength and style to these spaces, it gives them an undeniable personality and unlimited practicality. Stains, bumps, utensils at high temperature... Dekton® will resist the demanding use over time while maintaining its unchanging beauty

It is not affected by ice, sun, sleet, or wind either. When bad weather arrives, Dekton® simply needs an effortless, fuss-free cleaning so that it can showcase its best again.

BATHROOM WALL COVERINGS AND WORKTOPS

The bathroom is the space in the home, where hygiene and harmony need to express themselves in the best possible way. A peaceful environment devoted to personal care and hygiene - a space to relax and unwind free of any worries.

Dekton®, thanks to its low porosity, is completely waterproof against liquids. Water glides smoothly over the surface without ever penetrating. This,

along with unchanging beauty, results in extremely easy cleaning.

Their textures and colours are an endless source of inspiration for the design of water-related areas, we're talking about Dekton®, its possibilities are endless.

DEKTON® WARRANTY

Dekton® is the only brand that offers a certified warranty. In writing. Only a global leader, due to the company's position as the largest producer of quartz surfaces could once again draw ahead of the pack and offer a real 10-year warranty for Dekton®.

Dekton® presents its 10-year warranty. A guarantee to give consumers more confidence. Once again Dekton® proceeds to innovate. The guarantee of the leader. We shall now indicate the steps to follow and the requisites for fulfilment of the Dekton® warranty.

Certificates

Dekton® is internationally certified to ensure maximum safety and protection.

NSF

Certification that substantiates that the product is safe for the health in hygienic terms.

ETE

Dekton® by Cosentino has been assessed by the ITeC (Instituto de Tecnología de la Construcción de Cataluña) as a product for ventilated façades.

Warranty terms and conditions:

10-year Warranty for Dekton® products installed by a workshop or stone mason:

1. For the warranty to take effect, the user must produce proof of purchase.
2. The warranty does not cover defects deriving from manufacturing or installing the product, as such operations are not performed by Cosentino.

Greenguard

Certification that substantiates the low emissions of chemical compounds.

ISO 14001

Accredits the efficiency in the use of water systems and the control of environmental risks.
